Access Group Southbank

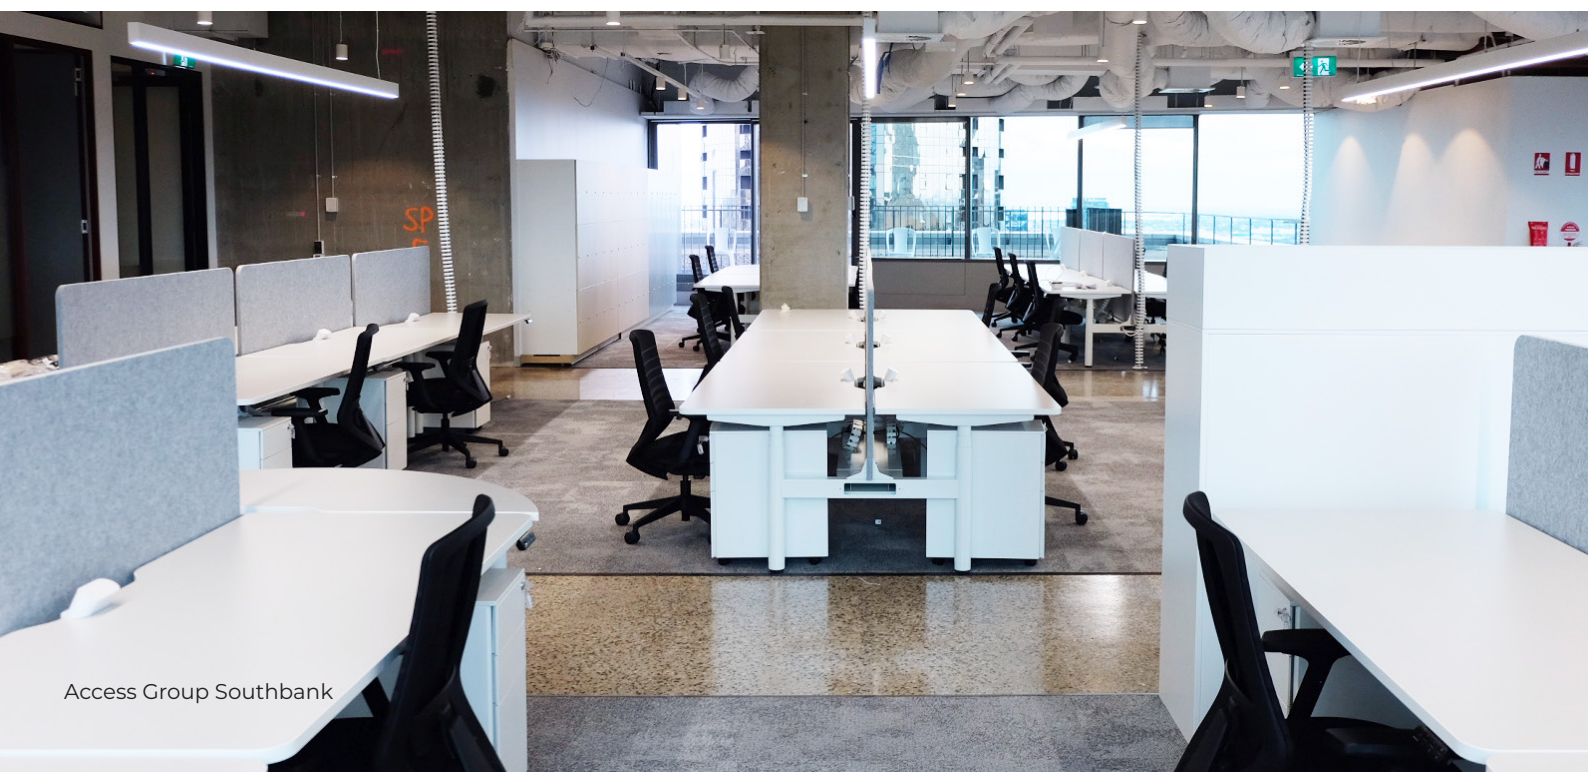

We pride ourselves on working collaboratively with our clients to produce customised furniture solutions that are uniquely designed and of high quality. We're dedicated to delivering spaces that encourage collaboration, innovation and functionality.

Our expertise

The Framework team has over 20 years of industry experience, providing high quality commercial furniture to clients both locally and abroad. We've worked with some of Australia's biggest brands to deliver projects that are tailored, functional and stylish.

Our range of custom furniture products have become staple pieces in workplaces, retail and recreation projects across Australia, New Zealand and the Asia Pacific. Our team is equipped to provide detailed design support to ensure our clients' workplaces are fit for purpose.

From storage solutions and workstations to lockers and accessories, we offer an array of quality products to suit your unique space.

Specification Summary

Specifications

We pride ourselves on delivering premium workstations that are designed with flexibility and function in mind. All our workstations are custom made and we offer a number of configurations to suit our clients individual needs.

Each timber top piece from our workstations is locally manufactured guaranteeing a high quality and custom finish.

Every material used within our workstations is selected to not only withstand the demands of everyday use but also meets the highest environmental standards.

Our high quality, long lasting sit stand workstations feature:

- Self supported petition walls that remain in a fixed position
- Double support rails which provide extra strength and durability
- E1 enviuroboards as standard on all sit stands
- 25mm laminex tops with modern scallop cut out used as standard
- Privacy screens made of Laine fabric that also double as personal pinboards
- Soft cable data supplied as standard
- Capability to create desks at any length

Features

- Fully customisable colours and sizes are available
- Five year warranty on motors and electronics
- 10 year warranty on structure
- Durable powder coat finish can be customised to suit company branding
- A carefully designed installation system allows for efficient on-site construction

Controller Systems

Please refer to page nine for all Framework controller and technology options available.

Operating Conditions

This product is intended for use in dry internal applications (+3°C to +35°C)

A Framework sales consultant would be happy to arrange a meeting to share more information with you.

* A Framework 5-year warranty applies to our Sit-Stand Workstations

* Laminex & Polytec certifications
